ment and humanitarian
projects, we support NGOs
achieve their mission**

NGO Online is an award winning program and project management system designed specifically for NGOs

With a product specifically designed for international development and humanitarian projects, we support NGOs achieve their mission!

NGO Online is a program and project management, cloud based IT solution, adapted for international humanitarian and development organisations, supporting everything from operations in the field to managing grants and reporting to donors.

BACKGROUND ON NGO ONLINE

Working with NGOs from around the world, Precio Fishbone has developed program and project management IT systems that help organisations improve their humanitarian and international development work. We have worked with numerous national Red Cross societies, national Save the Children societies, members of the Oxfam confederation and various other international organisations. We have developed an IT system tailored to the individual needs of the organisation that helps them improve the performance of their teams, projects and programs. The system is available as a Cloud solution based on Office 365 and can be accessed in low-bandwidth environments.

ABOUT NGO ONLINE, BASED ON OFFICE 365

The solution we offer is built on the Microsoft Office 365 platform, building on the functionality of SharePoint Online. SharePoint Online offers a rich set of

standard functionality for information sharing, document management, task management, collaboration, workflows (including project and grant management cycles), integration with financial or human resources software and much more. NGO Online builds on SharePoint Online's existing capabilities but adds additional functionality designed exclusively for NGO operations. The SharePoint Online platform and NGO Online are configured to meet each NGO's individual needs and are adapted accordingly to each individual organisation's visual identity.

ABOUT OFFICE 365

O365 is where Office meets the cloud. The power of the cloud enables users to access up-to-date information from anywhere in the world. With the capability of working offline, whether on a computer or a mobile device, NGO Online users can always access their documents.

BENEFITS OF O365/SHAREPOINT ONLINE

- Get access virtually anywhere on most electronic devices
- Work on Microsoft Office suite documents online or offline
- Access e-mail, calendar and contacts anywhere and anytime
- Automatic backup of files
- Share files and collaborate with colleagues in real time
- Version control
- Powerful search capabilities to allow you to find documents easily

PRECIO FISHBONE'S NGO ONLINE SUPPORTS THE FOLLOWING FUNCTIONALITY:

- **Program and project management**
- **Project Cycle Management**
- **Stakeholder management**
- **Donor and grants management**
- **Collaboration sites for team, country and advisor information**
- **Document management with:**
 1. Centralised template management
 2. Individually track key and favourite documents
 3. Outlook/GroupWise add-in
- **Methodology support including:**
 1. Different paths for different types of work
 2. Information pages including guidance documentation
 3. Checklists
 4. Reviews and Approvals
 5. Configurable to each organisation's methodology
- **Support to workflows, activity management, risk logs and log frames.**
- **Areas for planning, reporting and gathering lessons learned**
- **Powerful search capabilities including an advanced and structured search function**
- **Support for financial budget planning, follow up, milestones**
- **Integration with back-end financial systems**
- **Personalised information throughout the system**
